INTERNSHIP CAMP 2017

KALINGA INSTITUTE OF SOCIAL SCIENCES (KISS)

Started with just 125 tribal students in 1993, Kalinga Institute of Social Sciences(KISS) has today grown into the largest free residential institute for indigenous (tribal) children. KISS provides holistic education from Kindergarten to Postgraduation(KG to PG), vocational training, food, accomodation, health care and all other basic necessities of life to 25,000 indigenous (tribal) children of the poorest of the poor background absolutely free. Students are enrolled from 62 indigenous communities(tribes) of Odisha of which 13 are classified as primitive. There are some students from adjoining States as well.

The Institute plans to educate 2,00,000 poor indigenous (tribal) children over the next decade. To achieve this goal, it has set up or is in the process of setting up branches in 10 states, with the support of respective state governments, and all 30 districts of Odisha. Achievements of KISS students in examinations and other academic events speak volumes about high quality of education at the institute.

KISS students, many of whom are first generation learners, have been achieving cent percent pass record in the final grade examinations for more than 10 years in a row. They have been representing State in the prestigious National Children's Science Congress every year since 2005. An indigenous (tribal) boy from the institute represented India in the Malala Day United Nations Youth Assembly at the United Nations Headquarters in New York in 2013. The students have also secured admissions in prestigious national-level institutes like NITs, IITs and IIMs, and bagged job offers from top companies like Accenture, TCS and Wipro. The course curriculum of the Institute is unique, for it incorporates vocational training with formal education, thus helping a child grow up educated as well as self-sufficient. Various activities are designed to help indigenous (tribal) children be rooted to their culture and tradition and remain integrated to their society. Students of KISS have proved their mettle not only in academics, but also in sports and cultural activities. Highpoints of these achievements have been their becoming Champion in Under 13 International Rugby Tournament held in Manchester, U.K. (2011) and participation of KISS students in Asian Games at Guanzhou (China) and Commonwealth Games (New Delhi).Each student passing out from the Institute is becoming a Change Agent for the future.

KIIT-KISS
A SYNERGY !

As defined in one of the major agendas of the UN, Transforming Our World - 2030 is the set of goals to be achieved by 2030 for sustainable development. "End poverty in all forms and everywhere" is the foremost agenda which less stress on poverty alleviation. The most important step towards this aim is impartment of education to all. This vision has been followed for the last 20 years by the KIIT and KISS synergy at a young and enchanting city of Bhubaneshwar, India.

Today, KISS is not just a gracious example of poverty alleviation through education but also an ideal blueprint for the upcoming methods of implementation of the prime sustainable development goal.

KIIT and KISS together are not just an example effective and constructive youth development through quality education but also responsible for the economic growth of the city and state at larget. The real estate and market quality have significantly developed in the region. The various exchange programs and UN study programs has brought the city and state to the maps of the world and students from the international community are looking to study and understand poverty and related issues to the core.

The dreams that poverty had darkened through its dullness are now being lightened up through light of education.

KIIT ENTREPRENEURSHIP CELL

E-SCHOOL

EAC

INTERNSHIP CAMP

CELT

KIIT ENTREPRENEURSHIP CELL

Founded in 2012, KIIT Entrepreneurship Cell is a student body that has devoted to itself to the cause of promoting and fostering the concept of entrepreneurship in the student community. Since its inception, KIIT E-Cell has regularly been conduction Entrepreneurship Awareness Camps, E-School sessions,hackathons, webinars and workshops to propel students' toward better careers.Their Camp is an annual event that enabled over 300 students gain internships this year.

KIIT TBI

KIIT TBI is an initiative of KIIT University supported by Department of Science & Technology (DST), Government of India. It offers incubation facilities and enables incubates to work in a secure, innovative and entrepreneurial environment as they progress through various stages of startup development. It was recognised as Technology Business Incubator in 2008 by NSTEDB. With this it has become the first such TBI in the state of Odisha. KIIT TBI is well networked with all other TBI's in India and the overseas through networks such as ISBA. It is a member of Asia Pacific Incubator Network (APIN).

KSOM

KIIT School of Management (KSOM), Bhubaneswar, India, established in 1993 as Institute of Business Administration and Training (IBAT) is a B-school in Odisha. The institute is AICTE approved and accredited by National and Accreditation Council (NAAC) in A' grade. It offers the two year flagship Masters of Business Administration (MBA) program along with a Bachelor of Business Administration (BBA) and a doctoral program. It runs out of a lush 35-acre campus within the University premises and houses state of the facilities such as an amphitheatre, a 500 seater auditorium and a wi-fi enabled campus.

THE INTERNSHIP CAMP

The Internship Camp, which is to be held on the second week of March, is an initiative of KIIT Entrepreneurship Cell which aims to provide internship opportunities to undergraduate students from the field of technology, biotechnology, management, designing and law from Bhubaneswar and our home university. KIIT Entrepreneurship Cell takes pride to provide this platform for the second time in a row. Keeping in mind the last year's success we have targeted to bring in 60 plus corporate and starts-ups from different regions and create 500 plus internship opportunities for the students.

The Internship Camp is supported by KIIT Technology Business Incubator, one of the largest incubation centres in Asia. This Internship Camp will facilitate a symbiotic relationship between your firm and the students of KIIT University as well. In this camp we focus on providing the best set of talents to the companies keeping in mind their requirements. The internship procedure consists of resume handling and analysis followed by student selection for the appropriate sectors and interview by the company officials. The lengthy process is to maintain the quality of the talents that the company wants to take.The internship durations are flexible and range from one month summer internship, two months summer internship and six month internships (for final year students).

This unique platform ensures that the companies get the most young and creative brains who can add some value to their organisation. Simultaneously the students also get to implement their knowledge in solving real life problems and gaining work experience. The internship camp also provides a networking platform to all the start-up and corporate firms to exchange ideas and increase their network.

WHY INTERNSHIP CAMP

The internship camp will be providing the companies with students having a perfect blend of talent and dedication that corporate and start-ups of this era are in search of

This camp will be attended by colleges from Odisha, Central and Eastern India; hence the companies will be getting a larger range of students to select their interns from. Also, students from multiple disciplines will be a part hence the companies will be acquiring talents according to their requirement.

The companies might find their future employee in the due course of the internship based on the intern's performance.

New perspective on organizational issues: Interns challenge "the way we've always done it" mentality and bring fresh, new ideas to the company. Interns are good at questioning processes and can often see a better way of doing things that a manager might not.

Companies likely rely on community support. Creating an internship program is an excellent way to give back. Hiring interns not only helps students in your community get started; it enhances the local workforce as a whole.

The students get support by gaining experience, develop skills, make connections, strengthen their resumes, learn about a field, and assess their interest and abilities.
